

showtouch™ for iOS

SHOW CONTROL

The ShowTouch for iOS app puts control at your fingertips. Download this app and check and maintain your show on the go!

FEATURES:

- ▶ Easy to Use
- ▶ Customizable
- ▶ Integrated Designer
- ▶ Secure Interface
- ▶ Portable

APPLICATIONS:

- ▶ Show Control
- ▶ Museum Exhibits
- ▶ Live Shows
- ▶ Testing

This app interacts remotely with your V16Pro/V4Pro show controller and instantly uploads your script. ShowTouch for iOS offers another level of flexible control for our Pro line of show controllers.

Download the free Touch configuration software from our website. Use the built-in tutorial to design your interface, add buttons, sliders, security codes, and upload images. Activate ShowTouch for iOS and the app will automatically retrieve the interface files from your show controller. Voila! Portable show control at your fingertips!

ShowTouch for iOS is available in the iTunes App Store.
