

TourTraXX

GPS Triggered Multi-Channel
Audio Player

AUDIO PLAYBACK

Take your show on the go! TourTraXX is a multi-channel Vehicle Audio Player that plays up to 16 audio tracks using GPS. It is ideal for pre-recorded bus tours, trolleys, shuttles and trams.

FEATURES:

- ▶ Ethernet for Remote Updating
- ▶ Microphone/Aux Input for Paging
- ▶ Rugged Automotive Connectors
- ▶ Spot Logging Capabilities
- ▶ Files Stored on CompactFlash
- ▶ No Moving Parts

APPLICATIONS:

- ▶ Bus Tours
- ▶ Train Rides
- ▶ Mobile Audio Advertising
- ▶ Background Music (BGM)
- ▶ Real-time Announcements

TourTraXX stores clips in MP3 format on CompactFlash for a rugged, reliable, maintenance-free solution to your playback needs. It is sized to fit almost anywhere and works in high vibration environments. Once programmed with our free and easy to use GPS Builder, TourTraXX steps through cues automatically as it moves through your defined geographical zones.

Spot-logging capabilities turn TourTraXX into a revenue generating opportunity. Advertising spots can be logged and time-stamped. The data is stored on the CompactFlash card for later verification and uploading.

Contact your Alcorn McBride representative today to discuss your application!
